Careers at Amazon

Work hard. Have fun. Make history.

Are you excited about combining your business intuition and analytical skills to uncover business opportunities? Do you want to deep dive in one of the largest databases in the world to generate insights to change the way Amazon works with 3rd party merchants across the EU? Does using analytical insights to improve the experience of customers sound exciting to you? If the answer to all these questions is yes, then joining the Business Intelligence team as a Business Analyst Intern is the opportunity you have been waiting for.

The successful candidate will be comfortable with SQL query design, have strong analytical skills and passion for using data to drive business decisions. You are analytical and creative, and you do not quit until you solved the problem. You attack complex business questions with data and curiosity, diving below the surface to identify the root cause and the underlying dynamics rather than just superficial trends. You communicate these dynamics clearly to other teams and enable the business to make the best data-driven decision.

Responsibilities:

- Create and manage models and reports to track business performance
- Develop, implement, and automate processes to extract simple insights from complex and large data
- Collect and analyze data and present results of the analysis for business reviews
- Analyze the root causes of business problems and come up with an actionable plan to solve them
- Identify the input variables of business performance, the relationship with the output variables and innovate the way we forecast future business performance
- Learn about the broad range of Amazon's data resources and understand how, when, and which to use

Requirements:

- Currently pursuing a MSc in Statistics, Econometrics, Mathematics, Computer Science, Operations Research, or Engineering or completed your degree in the last six months
- Excellent communication and data presentation skills
- Good working knowledge of SQL
- Excellent Microsoft Office skills, including a strong working knowledge of Excel
- Fluent written and spoken English
- Impeccable attention to detail and ability to manage multiple priorities simultaneously
- Passion to invent new ways of executing processes more efficiently
- High levels of integrity and discretion in handling confidential information
- Ability to work in wide variety of people in various team

Preferred:

- Solid project management skills
- Knowledge of VBA and programming skills
- Owner mentality, entrepreneurial drive

This is an internship based at our EU HQ in Luxembourg. Please apply via: https://uk-amazon.icims.com/jobs/249825/business-analyst-intern/job
